(304) 233-0000

Biography

Jennifer S. Linder has more than 17 years of industrial hygiene experience at a chemical production site. Jennifer holds dual B.A. degrees in Biology and Chemistry, as well as a M.S. degree in Occupational Hygiene and Occupational Safety. She has experience formulating air and noise sampling plans for a chemical manufacturing facility. She manages sampling equipment and media inventory for both personal and area exposure monitoring to complete sampling surveys. She evaluates workplace conditions through observations and sample survey results. She is responsible for record keeping and communicating survey data with supervision and employees through written reports. Jennifer has also served in the role of Radiation Safety Officer.
