(304) 556-8215

Biography

Joyce Gentry, PE, MS, has more than thirty years of experience in the environmental arena. Joyce received a B.S. degree in Civil Engineering and an M.S. degree in Civil/Environmental Engineering. She works with industrial, municipal, and commercial clients, providing technical consulting services, including water and air permitting, pollution prevention planning, the development and implementation of waste management programs, as well as advice on client-specific environmental issues. In addition to providing support for industrial and commercial clients, she has provided litigation support, such as environmental data analysis and data management.

Joyce has a wide range of air, water, and waste compliance experience and has held several positions with environmental companies. Her expertise includes Title V permit applications, Synthetic Minor, NSPS, designing site Risk Management Plans, compiling site air emissions inventories. Joyce also has experience drafting WV Regulation 13 permit requirements, MACT permit requirements and EPCRA 311, 312, and 313 annual reports. She has prepared NPDES applications and reviewed draft NPDES permits for both industrial and municipal clients. She has developed and reviewed Spill Prevention, Countermeasure, Control (SPCC), Ground Water Prevention (GWP), and Storm Water Pollution Prevention (SWPP) plans.
