

Overview

Benchmark Safety, Health & Environmental Services, LLC provides a variety of environmental, safety, and occupational health services. Team members have decades of experience in a combination of manufacturing, chemical, energy, medical services, and office setting environments. They assist clients with a broad array of safety, industrial hygiene, and environmental matters including, but not limited to, comprehensive OSHA compliance reviews, specific safety/occupational health program reviews, preparation of expert opinions to support litigation, industrial hygiene assessments, and working conditions audits.

Representative Experience

- Hexavalent chromium exposure monitoring and engineering controls assessments/design, as well as work practice development
- Silica dust exposure monitoring and engineering control assessments/design, as well as work practice development
- Asbestos management planning for buildings and equipment with asbestos-containing materials
- Working conditions assessments with respect to occupational health exposures to various contaminants and allergens
- Indoor air quality assessment (including office buildings)
- Mold and bacteriological assessments in structures
- Emergency response plan assessment/preparation
- Noise exposure with respect to the facility and community

OSHA Compliance Assistance

- Fall protection
- Hazard communication
- Scaffolding
- Zero energy (lockout/tagout)
- Respiratory protection
- Ladder safety
- Powered industrial trucks
- Machine guarding
- Personal Protective Equipment

Areas of Focus

- Chemical manufacturing
- Aluminum manufacturing
- Steel manufacturing
- Natural gas production
- Petroleum storage
- Municipal sewage treatment
- Municipal water treatment
- City engineering services
- Wood and paper products

Team Certifications

- Certified Industrial Hygienist (CIH)
- Certified Safety Professional (CSP)
- Safety Engineers with Professional Engineering Registrations (PE)
