Why use Benchmark for your environmental compliance needs?

- Our professionals understand how actions impact long-term, sustainable improvements in environmental performance.
- We have multi-regulatory program experience with U.S. Environmental Protection Agency (USEPA), multiple states, and local municipalities.
- Team members have real-world experience and have served in top management and governmental positions such as in-house environmental engineer for a Fortune 500 chemical manufacturing plant and in-house environmental/production engineer for a Fortune 500 chemical manufacturing plant.
- Experience working under attorney-client work privilege and managing sensitive client issues.
- We emphasize understanding processes and client objectives.
- Realization of both corporate and operating unit objectives and effectively communicating across lines by adapting to client culture.
