

Michael Ross Haynes, MS

Industrial Hygiene Division Manager

Bridgeport, WV

mhaynes@benchmarkpllc.com

(304) 669-3684

Biography

Mike has spent the past 30 years working in the SH&E (Safety, Health, and Environment) field, specializing in industrial hygiene, ventilation, and indoor air quality assessments. His educational background in chemistry and biology, along with a Master of Science degree in Occupational Health and Safety Engineering, has equipped him to excel in the chemical industry.

As a consultant, Mike has the opportunity to share his expertise and knowledge with a broader audience. His extensive experience allows him to provide clients with reliable and accurate results while assisting them in developing effective control measures.

Mike is dedicated to enhancing the health and safety of workers. He ensures that the company he works with meets or exceeds regulatory requirements and mandates, prioritizing the well-being of employees.
